Pentair Expands Residential Water Treatment Offerings With Pentair Water Solutions

January 25, 2022

Enhanced digital experience encompasses full transition of Pelican Water

LONDON--(BUSINESS WIRE)-- Pentair, a leading provider of water treatment and sustainable solutions, is proud to introduce a new, updated Pentair Water Solutions experience, exclusively on Pentair.com. With this updated website and the support of a network of professional installers, Pentair Water Solutions is well-positioned to provide leading water treatment solutions and services directly to consumers through a variety of channels, including both online and in-home.

“Pentair delivers tailored and sustainable solutions that help consumers move, improve and enjoy water for happier, healthier lives,” said Mario D’Ovidio, EVP and President, Pentair Consumer Solutions. “Through Pentair Water Solutions, which encompasses the previously acquired Pelican Water, we are expanding our consumer residential water treatment offerings to provide our customers with the expertise and innovative product solutions to confidently solve their unique water challenges.”

Unique Pentair Water Solutions Offerings

Pentair Water Solutions provide consumers with a suite of innovative solutions to address common residential water challenges including hard water scale and build-up, chlorine taste and odor, and lead and arsenic contamination.

Consumers can now address their water challenges from the comfort of their homes through a curated experience designed to take them from Water Curious to Water Confident. For added flexibility, extensive contact options are available including an online chatroom, virtual appointments and in-home conversations with Pentair Home Water Experts.

Additionally, Pentair’s solutions are customized for each home and supported through proprietary, real-time local water data and commercial-grade water testing that demonstrates how water differs from home to home, block to block and city to city. This ensures every homeowner receives a personalized, results-driven solution for cleaner, better-tasting water.
