LONDON--(BUSINESS WIRE)-- Pentair plc (NYSE: PNR) today announced first quarter 2019 sales of \$689 million. Sales were down 6 percent compared to sales for the same period last year. Excluding currency translation, acquisitions and divestitures, core sales declined 4 percent in the first quarter. First quarter 2019 earnings per diluted share from continuing operations ("EPS") were \$0.30 compared to \$0.32 in the first quarter of 2018. On an adjusted basis, the company reported EPS of \$0.43 compared to \$0.49 in the first quarter of 2018. Segment income, adjusted net income, free cash flow, and adjusted EPS are described in the attached schedules.

First quarter 2019 operating income was \$68 million, down 27 percent compared to operating income for the first quarter of 2018, and return on sales ("ROS") was 9.8 percent, a decrease of 290 basis points when compared to the first quarter of 2018. On an adjusted basis, the company reported segment income of \$99 million for the first quarter, down 16 percent compared to segment income for the first quarter of 2018, and ROS was 14.3 percent, a decrease of 170 basis points when compared to the first quarter of 2018.

Net cash used for operating activities of continuing operations was \$257 million and free cash flow usage from continuing operations was \$274 million for the quarter.

Pentair paid a regular cash dividend of \$0.18 per share in the first quarter of 2019. Pentair previously announced on December 10, 2018 that its Board of Directors approved a 3 percent increase in the company's regular annual cash dividend rate for 2019 to \$0.72 from \$0.70, adjusted for the spin-off of nVent Electric plc. This marks the 43rd consecutive year that Pentair has increased its dividend.

"Wet and cold weather delayed pool construction activity in several key markets," said John L. Stauch, Pentair President and Chief Executive Officer. "We have not seen any significant changes in demand trends within the important Aquatics markets. The inclement weather also impacted our higher margin Specialty Ag Spray business within Flow Technologies. As a result of slower sell-through during the first quarter, inventory levels were not reduced to the levels we originally anticipated. We expect inventory levels in the channel to come down as stronger sell-through resumes in the second and third quarters."

"We believe this is a 2019 event and we expect to be even better positioned for the season next year. We continue to invest in our prioritized growth initiatives around advancing pool growth and accelerating residential and commercial water treatment. We are accelerating our productivity initiatives across operations and material sourcing and optimizing our cost structure. We have a strong capital structure, solid free cash flow generation, and we are continuing to invest in our strategy to be the leading residential and commercial water treatment company."
